

## Shop Floor Microscope

We are happy to introduce our shop floor microscope. This microscope is lightweight and portable, making it easy to carry anywhere. It provides four different magnification ranges: 20x, 40x, 60x, and 100x. Each scale has a unique least count and measuring range. This device not only offers a magnified view of intricate patterns and object contours but also allows for length measurement and dimension comparison using a scale within the eyepiece. Additionally, it features built-in rechargeable LED illumination.

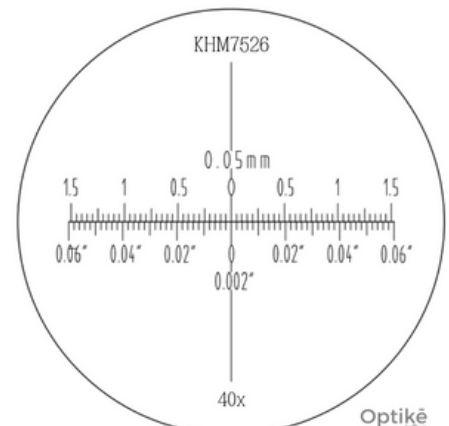

### Different Magnification Options
